BUSINESS RATES IN ENGLAND AND WALES

1. How your rates are calculated

Business rates are payable on most non-domestic properties, including buildings part-used for non-domestic activity.

- The multiplier you need to use may vary based on your company size and location and will indicate the tax liability you will pay in each pound of the estimated rateable value.
- Business rates liabilities for the following tax year will be issued annually by letter via local authorities in February-March.
- You can [look up your rateable value](#), which can be multiplied by the multiplier to calculate liabilities for the applicable financial year.
